The following article “Quasi-Distributed Fiber Bragg Grating Array Sensor for Furnace Applications” published online first with open access at Springerlink.com (DOI:10.1007/ s13320-012-0046-7) by P. SAIDI REDDY *et al.*, has been retracted by agreement between the authors and the journal Editorial board.

The retraction has been agreed because:

There were significant technical errors and misleading statements in the work. Additionally, two of the collaborative authors' name, J. CANNING and K. COOK, were omitted and neither has had the opportunity to assess and approve the submitted manuscript.
